

Dear Society and Student Group Committees,

We'd like to follow up from our email yesterday evening with some further advice for your committees.

First of all, we would like to thank all of you for your patience and understanding.

Although your health needs to be our priority, we are incredibly saddened to have to oversee the cancellation of so many society events and the impact that this has on you and your members. We especially send our condolences to those of you who had events last night and had to cancel at the last minute. We know how hard you have all worked to plan some truly amazing events and we have no doubt that you will continue to act in the best interests of your society as the situation develops.

The Activities Team will be working hard to minimise impact on your societies where possible and to understand any implications which arise from your event cancellations.

Please see the guidance attached to the email from yesterday for further details. Please also see the checklist attached to this email and ensure your committee have followed the steps set out.

If you have any specific questions or would like advice, please email [coronavirus@exeterguild.com](mailto:coronavirus@exeterguild.com). Please continue to email [activities@exeterguild.com](mailto:activities@exeterguild.com) as usual for any process-related queries or anything which needs processing.

We will be continuing to send out further guidance and will be adding a page to the Committee Resources section of the website with specific advice for societies.

Once again, thank you all so much for your cooperation and understanding. Please ensure you are taking the time to look after your own physical and mental wellbeing.

Best wishes,

Tom, Emily, Abi, Louise, Delane and Tiago

The Student Activities Team
