## Outcomes

### The Comments

- <http://www.exeterguild.org/change/ideas/idea89-condemnis/>
- Comments around representing what happened at the NEC
- Comments around reasoning for the motion

### Action(s) possible

Although the vote has passed by more than two thirds there is no financial aspect here – it is the mean average which is most indicative, and that is below four.

Although 56 agree, 10 disagree and a further 10 are neutral or confused.

Given the comments we can't track who disagrees because the wording of such a condemnation must be absolute, and not give rise to problematic interpretations; or who disagrees simply because it's a political issue outside the scope of the aims of the Guild as a charity and membership-led organisation.

Council must decide whether the wording reads as leading towards a Student Vote; or whether this poll classes as the vote in question; and what actions arise as a consequence. The numbers voting are less than 100 so it is Council's decision on timing and further action.
